### Packaging licensing at RIGK Your benefits:

- ✓ A RIGK-Agreement relieves you of the obligations under the German Packaging Law in a low cost, legally compliant way.
- ✓ You will be able to offer your customers efficient packaging recovery throughout Germany from a single source.
- ✓ You can delegate your tasks to a reliable, experienced specialist, who has been providing safe, sustainable recovery and environmentally friendly recycling of plastics for more than 25 years.
- ✓ RIGK can also take on your official documentation obligations (e.g. waste manifest, documentation obligation for sales packaging of hazardous products).

RIGK has been an active member of EPRO, the European Association of Recovery Systems, since 2006. RIGK is the joint organizer with EPRO of the International Recycling Forum.

### We understand your business

RIGK is a service provider from industry for industry and commerce, founded by renowned plastics and packaging manufacturers.

\*The German Packaging Law states that: Fillers, retailers and importers must recover empty packaging from their customers and recycle it.

### PLASTSHIP

#### Making the use of recycled plastics standard practice

The online platform [www.plastship.com](http://www.plastship.com) opens up new markets for [plastics recyclers](#) and provides solutions for the distribution of recycled plastics to quickly and easily acquire new customers and serve them via plastship as a customer portal.

[Plastics converters](#) get an overview of the market, find raw materials exactly suited to their application, can track their orders and prove the recycled content in products via the RecyClass Recycled Content certification.

Furthermore, as a certification body of RecyClass, plastship evaluates the [recyclability](#) of plastic packaging, uses the network to set up closed cycles and advises on the use of regranulates. RIGK's overarching goal through its involvement in plastship is to move closer to a closed loop in plastics recycling.

Direct contact:  
 Phone: +49 6126 58980-12  
 E-Mail: [info@plastship.com](mailto:info@plastship.com)

We view plastics recycling as a global task, in order to guarantee that valuable resources are handled sustainably and responsibly for future generations.

## What can we do for you?

### ➤ Packaging of non-hazardous products from industry and commerce

#### RIGK-SYSTEM

- ▶ Germany-wide delivery system
- ▶ All year round
- ▶ Funded by fillers/distributors
- ▶ Free for the final consumer
