

RIGK-G-SYSTEM

Summary for final consumers

For commercial and industrial plastic packaging of **hazardous** products.

As a commercial and industrial final consumer, you can use the **RIGK-G-SYSTEM** to return used plastic packaging of **hazardous** products free of charge. This packaging is conveyed to a recovery system in accordance with the terms of the German Closed Substance Cycle Act (Kreislaufwirtschaftsgesetz [KrWG]).

► What packaging is recovered ?

The following packaging types are recovered:

Rigid packaging

- Bottles
- Canisters
- Buckets
- Barrels

Plastic sheets

- Plastic sacks
- Sack linings for solids
- Combined plastic packaging (consisting > 50 % plastic)

Paper sacks

- Paper sacks with REPASACK trademark

Flexible containers

- Flexible IBC (Big Bags)
- Fabric sacks

► How does the return work ?

All packaging of hazardous products that is provided with the RIGK trademark (for plastic packaging) or with the REPASACK trademark (for paper sacks) may be returned via RIGK free of charge – either in a type of construction approved collection sack, in bulk or in a container. For the smooth and fast return of your hazardous packaging please contact +49 611 308600-13 or g-system@rigk.de. The RIGK-G-team will organize the return of the packaging under taking into account the risk classification and the location of your site.

The packaging is assumed in compliance with waste disposal regulations as EAK waste entry 15 01 10* "packaging that contains the residuals of hazardous substances or is contaminated by hazardous substances."

Dependent on the hazard class and type of packaging, the disposal of hazardous substance packaging takes place nationwide through sanctioned reception points, treatment plants, and incineration plants. As evidence of proper disposal, the final consumer receives a certificate of receipt or rather a recovery record that is in compliance with waste disposal regulations.

RIGK-G-SYSTEM

► Reprocessing Groups

Plastic packaging of **hazardous products** which due to their content are subject to labelling requirements under the law on hazardous substances and/or the law on dangerous goods and/or on the GHS is recovered. Packaging with gases, explosive, infectious and radioactive substances is excluded from the recovery.
