

RIGK-G-SYSTEM

Schedule 5 RIGK trademark and labelling guidelines

► RIGK trademark

General use

Use on combined plastic packaging
(RIGK-SYSTEM)

*Exemplary trademark user number

► Labelling guidelines

The RIGK trademark must be applied in such a way that it will remain affixed to the packaging or to the product label, preferably by means of printing.

The **minimum size** of the RIGK trademark depends on the volume of the respective packaging.

Volume	Minimum size (W x H)
up to 5 litres	20 mm x 20 mm
5 litres to 30 litres	35 mm x 35 mm
30 litres to 200 litres	50 mm x 50 mm
of more than 200 litres	100 mm x 100 mm

The trademark user number (filler number) must be printed horizontally below the RIGK trademark.

Labelling of **combined plastic packaging** (e.g. PE/aluminium or PE/PA) in the **RIGK-SYSTEM** must show the **letter V** in the middle of the RIGK trademark.

In the **RIGK-G-SYSTEM** the RIGK trademark must be applied to the packaging so that it is recognisable concurrently and in collaboration with the requisite labelling for dangerous materials or goods. In this connection it is not the distance between the marks which is significant, but the need to guarantee that the observer is able to simultaneously identify both identification marks without any doubt.
