

Summary for trademark users

For commercial and industrial packaging of **hazardous** products.

For fillers and distributors of **hazardous** products, which conclude a trademark user contract (licence agreement) with RIGK GmbH, we assume the taking back and recovery of the packaging in conformity with the law. For this, the packaging must be labelled with the RIGK trademark and an allocated trademark user number.

The RIGK trademark signals to commercial and industrial final consumers the possibility to return packaging free of remnants.

► How does the participation work ?

You conclude a trademark user contract with RIGK GmbH, which allows you as filler and distributor to apply the RIGK trademark. Depending on Reprocessing Group and weight, you pay a fee. This licence fee covers the costs of the taking back, the recovery and the documentation of your packaging.

We will be happy to submit you an offer without engagement. Please get in contact with Mr Volkmar Löber (by e-mail loeber@rigk.de or by telephone +49 611 308600-36).

► What packaging is recovered ?

Through the **RIGK-G-SYSTEM** packaging of **hazardous** products which due to their content are subject to labelling requirements under the law on hazardous substances and/or the law on dangerous goods and/or on the GHS is recovered. Packaging with gases, explosive, infectious and radioactive substances is excluded from the recovery.

Rigid packaging

- Bottles
- Canisters
- Buckets
- Barrels

Plastic sheets

- Plastic sacks
- Sack linings for solids
- Combined plastic packaging

Flexible containers

- Flexible IBC (Big Bags)
- Fabric sacks

Paper sacks

- Paper sacks with REPACK trademark

RIGK-G-SYSTEM

► The Reprocessing Groups

Before concluding the contract, you will make available to RIGK a list of the packaging of hazardous products and enable RIGK to access your EC-safety data sheets. You order the packaging to be reported to RIGK according to its risk potential into the following Reprocessing Groups.

	A	B						
GGVSE / ADR								
Class		3	4	5	8	9		6.1
GHS								
GHS code	GHS 07 GHS 08	GHS 02	GHS 03	GHS 05	GHS 09	GHS 06		

► The notification of quantities

Part of the Agreement of the **RIGK-G-SYSTEM** are the annual notifications of quantities by the trademark user to RIGK. You notify RIGK of the quantities of packaging (empty weight) marketed in the territory of the Federal Republic of Germany in an Advance Notice and a Final Notice.

In the Advance Notice, you notify RIGK at the beginning of your business year what packaging quantities will be marketed in the year. Based on the scale of fees and the notified quantities per Reprocessing Group, RIGK determines the outstanding pre-payments.

After the end of the business year, you notify RIGK of the packaging quantities actually distributed (final notification). From this, the annual fee will be calculated. Any differences to the pre-payments are reimbursed or billed for.

For all trademark users, a certificate of the Final Notice by an independent office is mandatory. This attestation can be made by a certified auditor or tax consultant in connection with the audit of annual accounts.

RIGK-G-SYSTEM

► The RIGK trademark

You signal your participation in the **RIGK-G-SYSTEM** to your commercial and industrial final consumers with the RIGK trademark. You receive the trademark together with your individual trademark user number for your packaging or label manufacturer. The RIGK trademark must be applied to the packaging in such a way that it can be recognized jointly and at the same time – even with superficial glance – with the hazard symbols. This labelling guideline should take into account a clear identification and differentiation from the packaging of **non-hazardous** products of the **RIGK-SYSTEM**. The correct position of your trademark user number is horizontal beneath the RIGK trademark.

false:

correct:

The RIGK trademark may not be confused with the material symbol in accordance with the national standard DIN 6120.

Please pay attention!

The **RIGK-G-SYSTEM** must not be confused with the **RIGK-SYSTEM** for packaging of **non-hazardous** products. These systems must absolutely be managed separately from each other!

► Any questions?

We will be happy to assist you by e-mail at info@rigk.de or by telephone at +49 611 308600-0.
