

RIGK QR-Code and labelling guidelines

Additional Information on the RIGK Take-Back System Participation Agreement

► RIGK QR-Code

► Labelling guidelines

The application of the RIGK QR-Code is optional. If used, make sure it will remain affixed to the packaging or to the product label, preferably by means of printing.

The minimum size of the RIGK QR-Code depends on the volume of the respective packaging.

Volume	Minimum size (W x H)
up to 5 litres	20 mm x 20 mm
5 litres to 30 litres	35 mm x 35 mm
30 litres to 200 litres	50 mm x 50 mm
of more than 200 litres	100 mm x 100 mm

If used the RIGK QR-Code in the RIGK-G-SYSTEM should the QR-Code be affixed to the packaging, so that it is recognisable concurrently and in collaboration with the requisite labelling for dangerous materials or goods.
